Dear Mr. Nussbaum:

In regard to your letter dated December 4, 2006 requiring a work plan to be submitted within 45 calendar days of receipt of the December 4 letter, Modine is requesting a 60 day extension to the deadline. This request is being made due to the shortened month because of the holiday season, the work load of the personnel involved in the project and the further consideration of the analytical results to determine a path forward for the site. The extra time will also allow more time to possibly coordinate a meeting between all interested parties. If you wish to further discuss the extension or have any questions, please contact me at (262) 636-1649 or at the letterhead address.

Sincerely,

Thomas S. Sanicola
Principal Environmental Engineer
